Stain Protection

Stain protection system

HTC presents a new easy to use stain protection system. There are increased demands that the floors must be protected from stains penetrating down into the floor. And now the best product on the market is finally here.

The HTC Stain Protection system contains new products used when demands for extra stain protection must be fulfilled. The product can be used as the last step in the HTC Superfloor™ process and is easy to use and an excellent extra protection of all hard floors against penetration of liquids and dirt.

- Reduce penetration of liquids
- Counteracts penetration of dirt
- Increase the gloss value of the floor
- Gives the floor an extended durability
