SX-series For hard floors

New SX-series. The ultimate selection of tools for the hard floor.

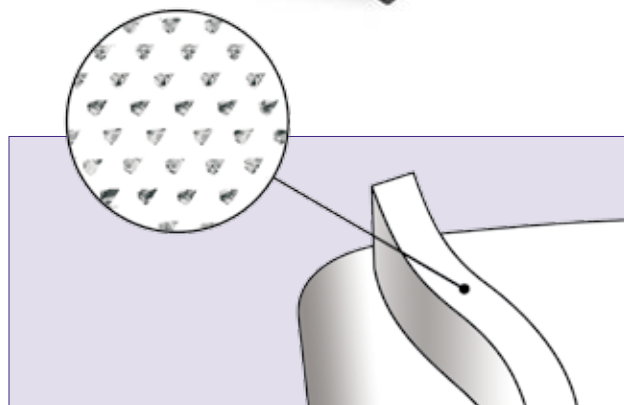

The SX-series are an extreme line of grinding tools for use on hard to very hard concrete, natural stone and terrazzo floors. The tools has been developed as a complement when other tools doesn't cut or for extreme removal.

- High cutting capacity on hard floors
- Extreme removal capacity
- "Pixel-technology" in the segments
- Unique protected design

SX - Only from HTC!

The innovative design and the characteristics of the segments make these tools completely unique in the market. The segments are manufactured using the new "Pixel-technology" which means the diamonds line up to achieve maximum grinding quality.

SX-series Guide

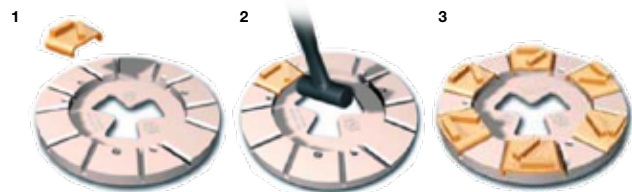

A complete series of tools for grinding of hard to very hard concrete, natural stone and terrazzo floors.

	Name	Art.nr	Description
	EZ SX 2	211858	A starting segment with extreme cutting qualities and removal capacity.
	EZ SX 3	211859	A slightly finer diamond segment which could be used as a starting segment or to achieve a slightly finer surface than with the EZ SX 2.
	EZ SX 4	211860	Is suitable to use after the previous step (EZ SX 3). Produces an almost score-free surface.

Ultra-fast change of diamond tools!

Fit the wing of the tool into the slot on the holder. There is only one position where it will fit. Gently tap the tool firmly into place with a rubber hammer. You are now ready to start!
