## Diamond Xpress

No water - no slurry

### A perfect finish has never been so easy. No water - no slurry.

Diamond Xpress is a grinding system for marble, terrazzo, limestone and concrete floors. Thanks to advanced diamond and composite technology, the system requires no water. This provides significant savings in personnel, equipment and management. By eliminating water, the grinding process can be completed in half the time. Moreover, the end result is improved thanks to a higher gloss.

#### Completely dry!

- No slurry to deal with
- Better work environment and minimized risk of falls
- No wet-vac required
- Faster processing
- Easier to achieve perfect results
- The impact is immediately visible
- Higher gloss reduces chemical use
- Suitable for a wide range of machine models
- A simple and cost-effective way to expand your business
