

HTC - the Innovators, not the imitators!

HTC EZgrind™ -series New edge tools

The tool for everything from coarse grinding to polishing

HTC:s completely new tools for grinding of natural stone, terrazzo and concrete. Suitable for edge grinding and preparation of surfaces difficult to reach. Can be used for both dry and wet grinding.

- The ultimate edge tool from heavy surface removal to polishing
- Can be used for both dry and wet grinding
- Long life & outstanding performance

EZgrind – Only from HTC!

The innovative and for the tool specific matrix is what gives the tools its unique qualities. It doesn't matter if it's coarse grinding or polishing, EZgrind handles both!

EZgrind™ -series

Guide

A complete line of tools from coarse grinding to polishing.

	Name	Item no.	Description
	EZgrind Ø 130 Grey 40	211964	A very coarse tool used when the surface is rough and needs to be levelled or extreme surface removal is desired.
	EZgrind Ø 130 Brown 60	211938	Can be used as the first step if the surface is level and smooth or if less surface removal is desired.
	EZgrind Ø 130 Black 100	211942	Produces a slightly finer finish than previous step.
	EZgrind Ø 130 Blue 200	211943	Produces a fine finish. Remove larger scores from previous step.
	EZgrind Ø 130 Red 400	211944	Produces a very fine finish as a preparation for final polishing.
	EZgrind Ø 130 White 800	211945	Used for fine polishing
	EZgrind Ø 130 Yellow 1500	211946	Used for fine polishing
	EZgrind Ø 130 Green 3000	211947	Used for fine polishing
