

HTC

The 950 RX

Remote control grinding

The HTC 950 RX™ is perfect for quickly grinding large areas. It significantly simplifies the grinding and polishing process using remote control technology.

The HTC 950 RX™ not only saves time and money for being so efficient due to its huge 36.2" grinding width, but also saves time and money on labor. Only one person is needed to manage the grinder and dust extractor, because the machine is operated by remote control. With features such as battery backup power, it can be loaded from a trailer without connected power.

- Remote control grinding and polishing
- Save time and money on labor costs, since only one operator is needed
- Patented well-known drive system with four grinding discs perfectly balances the machine
- Battery drive makes it extremely easy to transport
- Mist Cooler System
- Integrated weights for adjusting grinding pressure
- Huge capacity with a 36.2" grinding width
- Save time and money on labor costs
