

HTC Superfloor™ PSP Penetrating Stain Protection

HTC Superfloor™ PSP (Penetrating Stain Protection) is a fully penetrating water, oil and stain repellent for HTC Superfloor™. Treated surfaces retain their natural color, texture, and breathability. Concrete Protector improves stain resistance and simplifies maintenance cleaning of interior and exterior, vertical and horizontal concrete surfaces. Water-based and low-odor, this VOC- compliant protective treatment is easily applied with pump-up sprayers. Fully penetrating, not semi-impregnating, stain protection is highly recommended for best life cycle results and maintenance practices.

Advantages

- Resists oil and food stains, and repels water and water-related stains.
- Easy soap and water clean-up.
- Works on lithium silicate hardened/densified floors.
- Low-odor suitable for interior application to occupied buildings.
- Fast drying – reduces down time.
- Treated surfaces “breathe” – does not trap moisture.
- Treated surfaces are not slippery.
- Appropriate for all concrete, from steel troweled to highly polished.
- Long-lasting, polymeric material suitable for interior and exterior applications.
- Re-coatable; penetrates and bonds to concrete previously treated with Concrete Protector – no stripping needed.

Limitations

- Not suitable for concrete surfaces that are heavily laden with oils. Clean such surfaces before application.
- Do not buff or burnish after application.
- Will not compensate for structural defects or bridge cracks, gaps and voids.
- Not suitable for surfaces subjected to below grade water exposure.
