

HTC - the Innovators, not the imitators!

# HTC Remote controlled grinder HTC 800 RX

## Maximize your efficiency – HTC 800 RX

HTC celebrates 20 years as a machine manufacturer and we decided to reinvent one of the worlds most appreciated grinders, the 800. The 800 have many benefits as it can go through standard doors with no problems and you will still have a large and efficient machine, you could say you maximize your efficiency.

The HTC 800 RX uses the same reliable technique as the larger HTC 950 RX and is equipped the same way with a battery and an extra wheel for transport. It's a classic in new suite, ready for the next 20 years.

- Remote control
- Raised handle gives a better turning radius  
- easier in narrow spaces
- Patented well-known drive system with four grinding discs - perfectly balances the machine
- MCS™ (Mist Cooler System)
- Ergonomically designed
- Integrated system of weights for adjusting grinding pressure
- 2 year machine warranty
- Easily fit through regular doors  
(total machine width = 86 cm / 34 in)

# Remote controlled grinder

## HTC 800 RX

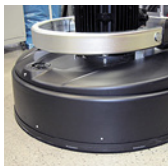

### Efficient & flexible with a remote control

The remote control makes the machine very simple to operate. The remote control also minimizes the risk for operator injuries. The operator can handle phone calls, the dust extractor and the surroundings without the need of shutting down the machine. By this you can actually double your performance.

### MCS™ (incl. as standard)

A small detail that makes a huge difference! Our unique MCS™ cools the tools so they stay sharp over time. This is vital on harder floors where some tools start glazing. With MCS™ you will get the most out of your tools with perfect cut and up to 30% longer lifetime.

### Floating Grinding Cover

Together with the HTC 80 iD it prevents dust to spread in the premises. The new covers have many benefits, one of them is that it increases tool performance.

### Technical Data - HTC 800 RX

	HTC 800 RX (EU)	HTC 800 RX (US)
Item no.	113481	113430
Motor	15 kW	20 hp
Ampere	32 A	32 A
Voltage:	3 x 380-415 V	3 x 460 V
Frequency	50 Hz	60 Hz
Weight	565 kg	1345 lbs
Grinding diameter	800 mm	31.5 lbs
Grinding pressure	217-237-315 kg	478-522-694 lbs
Rpm	300-1400	300-1400
Water tank	26 L	6.9 gallons
Grinding discs	4 x 270 mm	4 x 20.6 in
Diode lamps	24 V	24 V
Control current	24 V	24 V
Frequency remote control	433,100 - 434,750 MHz	433,100 - 434,750 MHz
Rec. Vac System	HTC 80 iD	HTC 80 iD
