

HTC Academy USA

- By professionals, for professionals

HTC Academy

HTC began offering instruction for floor solutions through HTC Academy in 2004. HTC Academy is the most up-to-date, advanced, comprehensive training covering all aspects of floor prep, hard surface refinishing (natural stone, overlay, hardwood, terrazzo and concrete), and the industry's best practices / procedures. Class attendance is limited to support a comfortable learning environment.

The HTC Academy is an excellent forum to stay up-to-date with new floor concepts and industry changes. Constant developments within the flooring and concrete industries demand new methods and knowledge to remain competitive. The Academy Program is designed to teach new participants the basics while challenging seasoned operators with new techniques, best practices and industry news to keep them "in-the-know".

The HTC Academy includes both classroom as well as hand-on instruction, allowing attendees to become familiar with HTC's complete line of grinders, dust extractors, diamond tooling and chemicals.

When, where & how is the HTC Academy held?

The HTC Academy is held at the [HTC home office](#) in Olathe, Kansas in accordance with the schedule listed below. The course is an all-inclusive (hotel and meals) two-day event, beginning with breakfast at 7 am, ending at 4 pm on the last day.

How many can participate in each HTC Academy?

HTC Professional Floor Systems Product sheet

We are able to accommodate approximately 15 participants in each class. We fill seats on a first come, first serve basis, according to when we receive the registrations. Each course has a registration deadline, so don't hesitate to register to hold your space.

How much does it cost?

The fee is \$495 per person.

How do I register?

Complete the online registration form via one of the links below. You can contact Brad Burns with questions via [email](#) or phone: [\(704\)-351-0063](tel:(704)-351-0063)
