HTC Cure+

- Item Number: (20 l) 593315501, (200 l) 595601501

HTC Cure+ is an advanced highly reactive concentrated mixture of potassium and lithium silicate for hardening and surface-enhancement of concrete and mineral materials such as cement-stabilised overlays and terrazzo.

HTC Grouting

- Item Number: 593314401 (10 kg)

HTC Grouting is a product used to fill pores and cracks and is used during the HTC Superfloor™ process to satisfy high demands for pore free and homogeneous floors.

HTC Professional Floor Systems Product sheet

HTC Stain Protection

- Item Number: 593315001 (10 l), 593315301 (5 l)

HTC Stain Protection is a solution based special product for impregnation and sealing of all natural stone, terrazzo and concrete floors. Provides a water and oil resistant surface.

HTC Stain Protection Primer

- Item Number: 593315101 (10 l)

HTC Stain Protection Primer is used as the first treatment before HTC Stain Protection, when the smallest change in surface color as possible is to be achieved.

HTC Stain Protection Pore Primer

- Item Number: 593315201 (10 l)

HTC Stain Protection Pore Primer is a water-based primer with polymers that provides a powerful water and oil-resistant surface. HTC Stain Protection Pore Primer can be used on all natural stone, concrete material, levelling products and terrazzo floors.
