

## HTC 80 iD II

- Fine tuned in the smallest detail

HTC's flagship dust extractor, HTC 80 iD II has been given a thorough update on eight different points. Details that may seem small but which are important for the user both ergonomically and economically. HTC 80 iD II is a top class dust extractor for professional flooring contractors who demand only the best.

This new dust extractor will improve your efficiency with up to 15% compared to a traditional solution. The HTC 80 iD II is equipped with a high performance integrated pre-separator that removes up to 95% of the dust and increase filter lifetime.

The HTC 80 iD II can be used in various ways depending on your setup. For maximum efficiency and output we recommend a remote controlled grinder. If you use a traditional grinder without remote control you can still benefit from the double Longopac® or make use of the optional remote control to turn on & off the dust extractor from a distance.

### The improvements

# HTC

## Professional Floor Systems

### Product sheet

- **New "duck bill" valves** - Empties the bags more efficiently. No hatches that can rip the collection bag.
- **Bypass valve for continuous operation** - Now with ergonomic slide function. More efficient emptying of the bag. Larger air hole and tighter construction.
- **Integrated pre-separator** - 30% increased dust volume.
- **Easy access power plugs** - Power plugs moved to the side of the machine for easy access.
- **New hoses** - More flexible and durable hoses for easy operation.
- **New locking mechanism** - More stable locking mechanism on the pre-separator.
- **Welded filter seams** - Welded filter seams prevent dust leakage.
- **Filter cleaning valve improved** - Improved handle with slide function.

#### **New "duck bill" valves**

Empties the bags more efficiently. No hatches that can rip the collection bag.

#### **Bypass valve for continuous operation**

Now with ergonomic slide function. More efficient emptying of the bag. Larger air hole and tighter construction.

#### **Filter cleaning valve improved**

Improved handle with slide function.

#### **A perfect match**

Flow optimized for concrete dust and HTC floor grinders increases your output.

## Professional Floor Systems

### Product sheet

#### Optional remote control

The remote control increases your productivity and flexibility.

#### 3,5 m<sup>2</sup> main filter area

3,5 m<sup>2</sup> main filter area gives a continuous high flow over time and longer cycles between filter cleaning.

#### Filter cleaning

Simple and effective, makes the filters as new with maximum capacity.

#### Lockable wheels

Easy to transport and maneuver.

#### Longopac™

Longopac™ makes it both faster and easier to empty the grinding dust. It is also economically advantageous since 100% of the bag material is used.
