

HTC 400

- Floor grinder with incredible removal rate

The HTC 400 is a very powerful grinder with a large grinding disc and high grinding capacity. The grinder is designed for heavy floor prep jobs, grinding away level differences and casting joints, and for quickly removing coatings. The motor and chassis can be easily separated, and the chassis is collapsible for easy handling and transport. The grinder even has a digital time counter.

Start grinding with a push of a button

The start/stop button is all you need to start grinding

HTC Professional Floor Systems Product sheet

Collapse and transport

Easy to separate the motor and chassis, easy to collapse and transport.

Keeping an eye on the hours

Hour meter tells you how long you've been grinding totally with the machine.

Quickly change tools

The EZchange™ system speeds tool changes and gives you access to a wide range of HTC tools.

Keep grinding dust under control

A floating grinding hood that responds to floor irregularities means improved dust extraction.
