

XX Series

- For extremely hard concrete, when nothing else makes the cut

The new XX2 is a unique diamond tool for the hardest concrete and where speed is essential. A problem-solver for when nothing else makes the cut. Softer segment bond means increased diamond exposure to surfaces – and those tough jobs going faster.

54 % higher effect!

Refers to productivity tests with tools on an HTC DURATIQ RX8 equipped with the Mist Cooler System and AirFlow™ tool holder. The tests showed 54% higher effect compared to corresponding grinding with the X-series

EZ XX2 Gold (DS) - 25 grit

- Item Number: 597150302

The XX2 tool has been especially developed for grinding extremely hard concrete when the X-series isn't up to the task. It is truly a high performance tool.
