

HTC Ravager Series

- Create a hammered, structured surface

Ravager is specifically developed for creating a bush hammered surface with high friction. This tool is perfect when wanting a coarse floor for high adhesiveness on overmoldings, and also when placing other toppings or creating a Terrazzo floor. It has a high stock removal capacity and can remove rigid and brittle coatings.

Improved wear resistance

HTC Ravager 230 and 270 are further developed with more pins per roll (48 pieces vs. 30 pieces in the earlier version). This gives improved wear resistance and a more homogenous surface as a result.

Are you looking for HTC Ravager 150? This tool can now be found in the [Edge tools section](#).

HTC Ravager 180 mm

- Item Number: 593344202

HTC Ravager 180mm is a tool specifically developed for creating a bush hammered surface or to expose large aggregate. The HTC Ravager creates a bush hammered profile perfect for high traction exterior surfaces. It has a high stock removal capacity and can remove rigid and brittle coatings. HTC Ravager 180mm consists of a disc with 3 rolls.

HTC Ravager 230 mm

- Item Number: 593344205

HTC Ravager 230mm is a tool specifically developed for creating a bush hammered surface or to expose large aggregate. The HTC Ravager creates a bush hammered profile perfect for high traction exterior surfaces. It has a high stock removal capacity and can remove rigid and brittle coatings. HTC Ravager can also achieve a standard surface preparation profile equivalent to C.S.P 6-7 (Concrete Surface Profile). HTC Ravager 230mm consists of a disc with 3 rolls.

HTC Ravager 270 mm 3 rolls

- Item Number: 593344206

HTC Ravager 270mm is a tool specifically developed for creating a bush hammered surface or to expose large aggregate. The HTC Ravager creates a bush hammered profile perfect for high traction exterior surfaces. It has a high stock removal capacity and can remove rigid and brittle coatings. HTC Ravager can also achieve a standard surface preparation profile equivalent to C.S.P 6-7 (Concrete Surface Profile).

HTC Ravager 270 mm 6 rolls

- Item Number: 593344207

HTC Ravager 270mm is a tool specifically developed for creating a bush hammered surface or to expose large aggregate. The HTC Ravager creates a bush hammered profile perfect for high traction exterior surfaces. It has a high stock removal capacity and can remove rigid and brittle coatings. HTC Ravager can also achieve a standard surface preparation profile equivalent to C.S.P 6-7 (Concrete Surface Profile).
