

T-Rex™ series

Coating removal

When nothing else bites! T-REX is a series of very aggressive Floorprep tools containing segments of PCD diamonds for the toughest of jobs. The tools have an extremely high removal capacity and can be used on thicker coatings such as epoxy, acrylic, paint and residues of glue or screed.

EZ T-Rex CLASSIC A

Item no: 598886501

Quantity per box: 3 pcs

- For removal of coatings 0-3mm
- 2 pcs of PCD segment per tool
- Suitable for our smaller grinders such as HTC 500 and below since fewer segments per tool means more weight and power into the floor.

EZ T-Rex CLASSIC A Prot. seg.

Item no: 598886601

Quantity per box: 3 pcs

- For removal of coatings 0-3mm
- 2 pcs of PCD segment per tool
- Suitable for our smaller grinders such as HTC 500 and below since fewer segments per tool means more weight and power into the floor.
- With protective segment for a prolonged life and a more controlled removal

EZ T-Rex CLASSIC B

Item no: 598886701

Quantity per box: 3 pcs

- For removal of coatings 0-3mm
- 2 pcs of PCD segment per tool
- Suitable for our smaller grinders such as HTC 500 and below since fewer segments per tool means more weight and power into the floor.

EZ T-Rex CLASSIC B Protect segment

Item no: 598886801

Quantity per box: 3 pcs

- For removal of coatings 0-3mm
- 2 pcs of PCD segment per tool
- Suitable for our smaller grinders such as HTC 500 and below since fewer segments per tool means more weight and power into the floor.
- With protective segment for a prolonged life and a more controlled removal

EZ T-Rex SUPER II A

Item no: 598886101

Quantity per box: 3 pcs

- For removal of coatings 0-3mm
- 5 pcs of PCD segment per tool
- The T-Rex SUPER II is ideal for our bigger grinding machines that have the ability to generate the power necessary to optimize their performance.

EZ T-Rex SUPER II A Protect segment

Item no: 598886201

Quantity per box: 3 pcs

- For removal of coatings 0-3mm
- 5 pcs of PCD segment per tool
- The T-Rex SUPER II is ideal for our bigger grinding machines that have the ability to generate the power necessary to optimize their performance.
- With protective segment for a prolonged life and a more controlled removal.

EZ T-Rex SUPER II B

Item no: 598886301

Quantity per box: 3 pcs

- For removal of coatings 0-3mm
- 5 pcs of PCD segment per tool
- The T-Rex SUPER II is ideal for our bigger grinding machines that have the ability to generate the power necessary to optimize their performance.

EZ T-Rex SUPER II B Protect segment

Item no: 598886401

Quantity per box: 3 pcs

- For removal of coatings 0-3mm
- 5 pcs of PCD segment per tool
- The T-Rex SUPER II is ideal for our bigger grinding machines that have the ability to generate the power necessary to optimize their performance.
- With protective segment for a prolonged life and a more controlled removal.

EZ T-Rex DOME II A Protect segment

Item no: 598885901

Quantity per box: 3 pcs

T-Rex DOME II is a tool specifically developed for really tough stripping such as removal of epoxy, glue or cementitious toppings >3mm. The tool consists of one PCD diamond segment and a PCD diamond dome that join forces to generate a highly powerful floor prep tool for thicker coatings. The T-Rex DOME II is equipped with a protective segment to improve performance (to avoid too deep penetration) and is available in both A and B versions.

EZ T-Rex DOME II B Protect segment

Item no: 598886001

Quantity per box: 3 pcs

T-Rex DOME II is a tool specifically developed for really tough stripping such as removal of epoxy, glue or cementitious toppings >3mm. The tool consists of one PCD diamond segment and a PCD diamond dome that join forces to generate a highly powerful floor prep tool for thicker coatings. The T-Rex DOME II is equipped with a protective segment to improve performance (to avoid too deep penetration) and is available in both A and B versions.

T-Rex RING CLASSIC 160 mm

Item no: 593331001

The T-Rex RING has been specifically developed for very uneven surfaces. The 160mm plate is designed for our smallest grinders.

T-Rex RING SUPER A 230 mm Protect segment

Item no: 593346006

T-Rex Ring SUPER is a tool with performance like the EZ T-Rex SUPER II, but specifically developed for uneven surfaces. It consists of several PCD diamond segments creating an aggressive tool with high stripping capacity. Thanks to its design it moves evenly on uneven floors, leaving an even surface. Now also equipped with special canals for efficient removal of dust and keeping the PCD's clean and M6S bolts for easy mounting.

T-Rex RING SUPER B 230 mm Protect segment

Item no: 593346005

T-Rex RING SUPER is a tool with performance like the EZ T-Rex SUPER II, but specifically developed for uneven surfaces. It consists of several PCD diamond segments creating an aggressive tool with high stripping capacity. Thanks to its design it moves evenly on uneven floors, leaving an even surface. Now also equipped with special canals for efficient removal of dust and keeping the PCD's clean and M6S bolts for easy mounting.

T-Rex RING SUPER A 270 mm Protect segment

Item no: 593346003

T-Rex RING SUPER is a tool with performance like the T-Rex SUPER II, but specifically developed for uneven surfaces. It consists of several PCD diamond segments creating an aggressive tool with high stripping capacity. Thanks to its design it moves evenly on uneven floors, leaving an even surface. Now also equipped with special canals for efficient removal of dust and keeping the PCD's clean and M6S bolts for easy mounting.EZ

T-Rex RING SUPER B 270 mm Protect segment

Item no: 593346004

T-Rex RING SUPER is a tool with performance like the EZ T-Rex SUPER II, but specifically developed for uneven surfaces. It consists of several PCD diamond segments creating an aggressive tool with high stripping capacity. Thanks to its design it moves evenly on uneven floors, leaving an even surface. Now also equipped with special canals for efficient removal of dust and keeping the PCD's clean and M6S bolts for easy mounting.
