

Tool Rings

- For concrete grinding

HTC's tool rings are equipped with our S, M or X single segments and is an alternative to using our single segment EZ wings.

SGW 2 Gold - 25 grit

- Item Number: (160 mm) 593345101, (220 mm) 593345102, (270 mm) 593345103

SGW 2 is a specifically developed tool for efficient wet grinding of natural stone such as Marble, Terrazzo, Limestone and Granite. The SGW-rings are also efficient when it comes to wet grinding of uneven placed floor tiles. SGW 2 is normally step 1 when wet grinding natural stone and terrazzo. The tool has a high removal capacity.

SGW 3 Grey - 40 grit

- Item Number: (160 mm) 593345201, (220 mm) 593345202, (270 mm) 593345203

SGW 3 is a specifically developed tool for efficient wet grinding of natural stone such as Marble, Terrazzo, Limestone and Granite. The SGW-rings are also efficient when it comes to wet grinding of uneven placed floor tiles. A slightly finer segment that can be used as step 1 for grinding natural stone and terrazzo.

SGW 4 Brown - 80 grit

- Item Number: (160 mm) 593345301, (220 mm) 593345302, (270 mm) 593345303

SGW 4 is a specifically developed tool for efficient wet grinding of natural stone such as Marble, Terrazzo, Limestone and Granite. The SGW-rings are also efficient when it comes to wet grinding of uneven placed floor tiles. A finer segment for natural stone and terrazzo. Removes scores after previous grinding steps in the SGW series.

SGW 5 Black - 150 grit

- Item Number: (160 mm) 593345401, (220 mm) 593345402, (270 mm) 593345403

SGW 5 is a specifically developed tool for efficient wet honing of natural stone such as Marble, Terrazzo, Limestone and Granite. The SGW-rings are also efficient when it comes to wet grinding of uneven placed floor tiles.
