

Fenix II

- For grinding & polishing overlays & concrete

Our FENIX series is perfect for grinding and polishing of cementitious toppings (overlays or screed) and concrete. Thanks to its flexible pads it is also a good problem solver in case of minor low spots when grinding and polishing concrete. The FENIX grinding pads can also be used in the HTC Superfloor™ process. The pads are easy to attach on Velcro holders under the HTC's machines. The tool series uses a clear color coding which simplifies the grinding process.
